**Re:** Request to Begin Injection; Salt Water Injection Well AWMS No. 2  
API No. 3415524075, Weathersfield Township, Trumbull County, Ohio

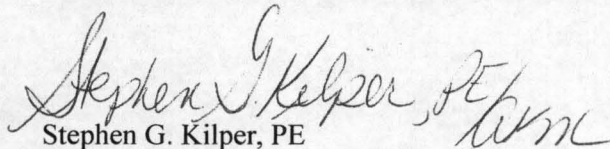

Dear Tom:

With the submission to you Monday of this week of the pressure fall-off test results, and the attached Well Stimulation Additives Report, American Water Management Services, LLC (AWMS) believes it has complied with all construction and testing requirements of the permit for the subject well. AWMS respectfully requests written authorization to begin injection operations as soon as the associated site facilities, piping, controls, and equipment are operational and ODNR verifies the integrity of those structures and systems.

The completion report that is required within 30-days of completion will be submitted shortly. AWMS expects that we will be ready to begin injection operations within approximately the next three weeks.

Thank you for your assistance and responsiveness, and the assistance of the DOGRM staff during the construction of AWMS #2.

Please contact me at 330-618-0259 or Don Kreager at 740-584-2030 with any questions.

  
Stephen G. Kilper, PE  
Vice President
